

## Kingsley Machine Hot Foil Napkin Guides:

This is how the Kingsley Machine is set up to imprint Napkins.

The gauge bar is used to hold the Kingsley Napkin Guide in Place. Note the use of a Cushion board under the napkin.

Below are two photos of the napkin guides that came with our old Kingsley. Note there is a longer Napkin Guide used for Imprinting Dinner and Luncheon Napkins and the shorter Napkin Guide is for Imprinting Cocktail Napkins
