## Goals

- HUGE THANK YOU to everyone teaching classes in June!
- August 15, 2025 is the official date for us to be in the new automotive space
- August 15 is going to be an open house for the space
- Vote on dent removal tools
- NO MORE BLUE TOWELS until we're moved into the new space.
- Discord will have the most up to date DMS Auto information
- Automotive 101 will go into effect soon (there will be a pre requisite online course)
- Auction may temporarily shut down automotive MONDAY 6/23
- Fundraising for the Auto space starting in July!

## Discussion items

| Time    | Item                                  | Who          | Notes                                                                                                                                                                                                                                                                                                                                                                     |
|---------|---------------------------------------|--------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 6:15 PM | Meeting start                         | Sam Mitchell | Sam opens the monthly auto meeting at 6:15pm                                                                                                                                                                                                                                                                                                                              |
|         | OFFICIAL MOVE DATE                    | Sam Mitchell | The official move date into the new automotive space is going to be August 15, 2025!<br><br>There will be an open house event. <a href="#">Megan Murray</a> is the point person of this event. We will reach out so some car clubs to showcase during this time. It's going to be a grand opening for this new garage space! More details to come!                        |
|         | Purchase Dent Removal Tools           | Chris DeYong | Chris motioned. Anna second. Unanimous yes to purchase new dent removal tools for DMS                                                                                                                                                                                                                                                                                     |
|         | Lift inspection for the two post lift | Chris DeYong | Sam and Chris will look into get this serviced                                                                                                                                                                                                                                                                                                                            |
|         | Fundraiser Ideas                      | Sam Mitchell | <ul style="list-style-type: none"><li>• Stickers, Tees, etc.</li><li>• Oil Changes</li><li>• anything to bring donations into the space</li></ul>                                                                                                                                                                                                                         |
|         | Internships                           | Sam Mitchell | Reach out to local colleges and get interns this fall to help with various things within the space and very specifically in DMS Auto <ul style="list-style-type: none"><li>• media</li><li>• scheduling</li><li>• events</li></ul>                                                                                                                                        |
|         | BIG AUTO PROJECTS                     | Sam Mitchell | We are working on setting up a sign to help gauge the type of auto project you may get into. Some projects require 1 or more people. Please reach out to the discord FOR HELP before starting these projects. PLAN beforehand!                                                                                                                                            |
|         | NEW SPACE                             | Ian Wilson   | <ul style="list-style-type: none"><li>• Electrician comes Monday 6/23<ul style="list-style-type: none"><li>◦ this should be completed around the second week of July</li></ul></li><li>• Getting the city of Carrollton out for inspection</li><li>• Fixing the AC and dropping the thermostat</li><li>• Measuring the concrete to drill for the new auto lifts</li></ul> |
|         | Storage Until the Move                | Sam Mitchell | We will need to store the new lift off to the side in the new space, WHILE STILL KEEPING IT CLEAR for the upcoming electrical input and measurements.                                                                                                                                                                                                                     |

|         |               |              |                                               |
|---------|---------------|--------------|-----------------------------------------------|
| 8:02 PM | Meeting Close | Sam Mitchell | Sam closes the monthly auto meeting at 8:02pm |
|---------|---------------|--------------|-----------------------------------------------|

## Action items

- ☒ Rick Narmore Kayla Kua will reach out to various local television and radio outlets to advertise the DMS space and automotive (as well as our event on 8/15)
- ☒ Ian Wilson is working on the electrical, AC and measuring the depth of the concrete in the new auto space
