

Racecar

Endurance racecar racing since 2014 in 24 Hours of Lemons and ChampCar

Fire Bottle:

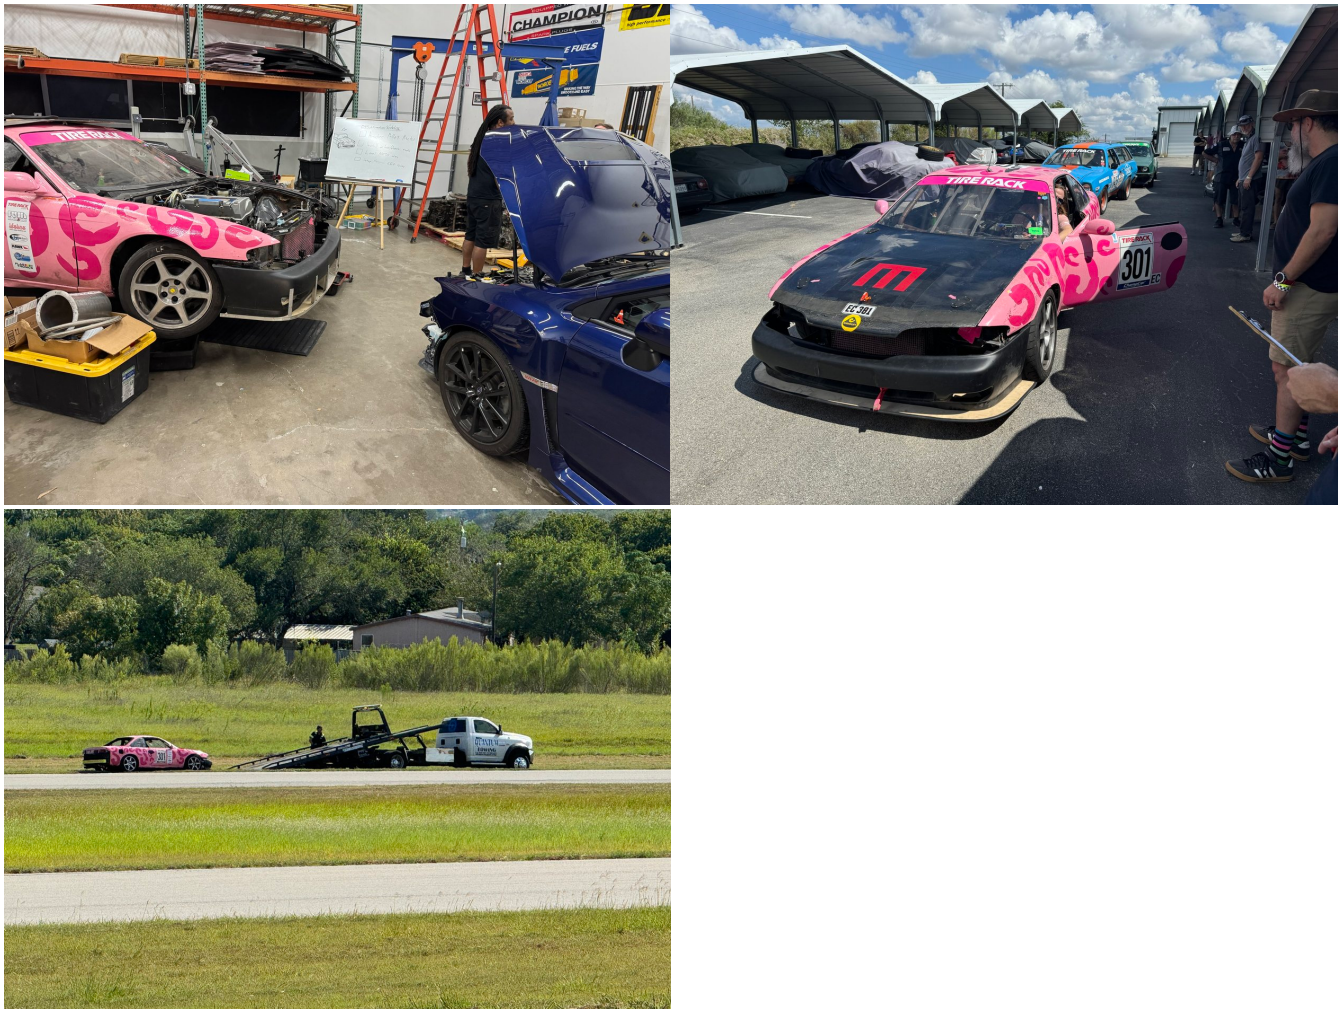

Lifeline Zero 2000 AFFF - foam based. Needs to meet "SFI 17.1- or FIA 8865 Technical List 16- or Technical List 52-certified onboard fire-suppression system is mandatory" per [Lemons](#)

Needs to be serviced every two years (October 2025)

Lifeline themselves service it, as does their certified dealer, Chris Taylor in Austin. Posting it: there's apparently nothing illegal about posting it via UPS, just label it *auto parts* to avoid confusion

Shrimplify:

Colin Chapman once said "Simplify, then add lightness".

Name	Nissan 240SX
Date Acquired	
Training	Training Required
Manufacturer	Nissan
Description	endurance race car
Volunteers
