New Business

Submitted By	Jason Harner
Agenda Item Title	First Annual MakerKhana
Problem	Increase engagement, improve volunteerism and foster community within the DMS Automotive /Motorsports community, which has historically lacked engagement.
Solution	<p>Requesting board support and funding for an automotive/motorsports focused open house tentatively dubbed "Makerkhana"</p> <p>Goal is to create 3 teams which would design and build small, low-speed drifting appliances (think Razer Krazy Kart, Drift Trike, small go-kart, mobility scooter, etc). Participation structured to encourage and enable new members, skilled existing motorsports and metal shop volunteers would assist in the design and construction where necessary. Current volunteers include: (Paul- Solidworks, Cooper - Welding, Max - Sheetmetal/Plasma, Jason- Powder coating/hype, etc). Other active automotive folks have expressed enthusiasm.</p> <p>Plan would be to kick off in May, two committee workdays + Thursday motorsports meetings + one build weekend before an open house style event in July. Event in July would have a drifting exhibition event to showcase the builds with a coned area from ramp to ramp in the parking lot. Would like to additionally grill burgers/dogs, have kind of an automotive culture type event, showcase our racecar/give tours/etc. Extra credit would be to have outreach to car clubs and have a car show as well.</p> <p>General rules for safety would be established. Currently thinking: Size 3'x3'x4', mechanical limit of 20mph, verified. Snell/FIA helmets required (we will provide), some appropriate noise limit.</p> <p>Participants would be required to attend two automotive workdays or volunteer an equivalent amount of time to the auto committee. Goal is a cleaner, more functional workshop.</p> <p>PR Campaign talk/discord/instagram posts. Tie-in simulator event. Open to other ways to build engagement.</p> <p>Budget: Roughly \$500 in material each for 3 teams, expect >50% recovery by selling karts at the end. \$100 for cones. \$100 for food. Scrounge speakers/fog machine/lasers/etc. Total cost <\$2000.</p>
Relevance	Making, learning and building community, everything we're about baybeeeee.

Agenda Item Title	WS/MS electrical work - \$2,600+
Problem	We need to add 230v electrical drops to MS/WS
Solution	<p>The WS and MS need additional 230v drops for bandsaw and welder use. Board approval has been delayed by the election and the current quote for \$2,600 may no longer be honored so I'd like approval for up to \$3,000 to get this moving forward and not require another discussion.</p> <p>This work has been aligned with the future expansion moves so that it will benefit the relocated areas; i.e. Randy and Burt have done their best to future proof it.</p>
Relevance	Aligns with WS and MS equipment needs for teaching and general use + future proofed for expansion plans

Agenda Item Title	Smart Whiteboard for classroom
Problem	not all classrooms have tvs in them
Solution	<p>we should get this smart whiteboard for that classrooms that do not have tvs. it would be helpful to teachers because they can have more interactive classes. It can be set on rollers so it can be moved from classrooms to classroom. it can do conferencing from the whiteboard it's self. Price would be \$4,000</p> <p>https://vibe.us/lp/smartboard/?tw_source=google&tw_adid=649886130434&utm_source=google&utm_medium=paid&utm_campaign=&utm_content=150402650070&utm_term=smart%20whiteboard&vibe_cam=&vibe_grp=150402650070&vibe_cid=19743665169&vibe_gid=150402650070&vibe_adid=649886130434&hsa_acc=2542539992&hsa_cam=19743665169&hsa_grp=150402650070&hsa_ad=649886130434&hsa_src=g&hsa_tgt=kwd-148960350&hsa_kw=smart%20whiteboard&hsa_mt=e&hsa_net=adwords&hsa_ver=3&gclid=CjwKCAjwjMiiBhA4EiwAZe6jQxB8jH53m8iLwuUcZquNY47xcz9gBFb0ZrqvYlRCReWQaoawXh-80BoCPp8QAvD_BwE</p>
Relevance	help promote from classes

Agenda Item Title	Ice/Water dispenser and/or maintain existing ice machine
Problem	Existing ice machine does not meet all user needs and needs maintenance
Solution	I've obtained an estimate for cleaning the existing machine as well as a quote from a dispenser vendor and want to discuss either pursuing one or the other option or even both with the board.
Relevance	Provide a great environment for education and making!

Agenda Item Title	Budget/plan for a newer AED and/or training
Problem	The existing AED is owned by DMS and an old model
Solution	Discuss the need for a newer model, potentially as a leased fully serviced model vs an owned, pay as you go approach. Also discuss the cost and training option and if that makes any sense given our environment.
Relevance	Providing a safe environment for education and making.

Agenda Item Title	Contract with WLAR for auction services
Problem	We need an auction house to handle our auction
Solution	I've met onsite with Warren and think they are a good fit for our needs and situation. I've circulated their contract with our legal rep and board and recommend we agree to their terms and contract with them.
Relevance	Clearing out old items in a fiscally prudent way to further our education efforts

Agenda Item Title	Appoint Officers
Problem	The new board needs to officially appoint its officers.
Solution	Appoint the following: CTO - Jay Phelps CFO - Jason Harner President - James Henningson COO - TBD Secretary - TBD* state required
Relevance	Some positions are required by the state, the others are necessary for continuity of the business.
