

2 Post Automotive Pad Lift

Donated by Tom (TLAR)

This is a two-post automotive pad lift with a rated capacity of 7000lbs. DMS automotive committee rules limit members to loads of 6000lbs or less.

This lift is equipped with two pads for lifting vehicles.

Use of the lift is limited to members who have received lift training. Training can be found through classes posted on the [calendar](#), or by contacting automotive or motorsports committee leadership.
